DETAILED ACTION

Response to Amendment

The after final amendment has been entered, as it places the application in condition for allowance. Claims 1 and 3-4 are amended. Claims 1-25 are pending. The translation of the foreign priority papers has been received, perfecting the foreign priority; therefore the Kinoshita reference (6,535,537) can no longer be used to reject the claims.

Allowable Subject Matter

Claims 1-25 are allowed. The following is an examiner's statement of reasons for allowance:

There is not taught or disclosed in the prior art an optically pumped surface emitting laser comprising a radiation generating quantum well structure generating radiation in an external cavity, a pump radiation source having an edge emitting structure optically pumping the quantum well structure, the edge emitting structure and quantum well structure being formed by a semiconductor layer sequence epitaxially and successively grown on a common substrate.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Art Unit: 2828

Response to Arguments

Applicant's arguments filed 1/5/2005, with respect to the Kinoshita reference have been fully considered and are persuasive. The rejections have been withdrawn.
